

Release of EASA B1 and B2 Examination Results

We are delighted to announce the results of our September/November 2024 EASA B1 and B2 examinations. Our candidates' overall performance is a shining example of their dedication, hard work, and exceptional capabilities.

This season, our class achieved an impressive pass rate of 88.94%, marking it as the best of the year! The modules with the highest pass rates were M4 B1B2, M9, M10, M12, M13, M14, and M15, all registering a perfect 100% pass rate. Module 6 had the highest number of candidates, at 19, with a remarkable pass rate of 95%. On the other hand, Module 14, with only three candidates, also achieved a flawless pass rate of 100%.

Virtual Session on Release of Examinations Results and Guidance on Log Book filling process.

While Module 3 registered the lowest performance, particularly among B1 candidates, we remain confident that continual improvement will turn this around in the future.

In addition to the release of examination results, we took the opportunity to guide our participants on the aircraft maintenance engineers' logbook filling process. This is a crucial part of their training which ensures that they are well-prepared for their license application process. We advised our candidates to now focus their attention on logbook filling and license applications after having completed examinations.

We are incredibly proud to recognize three outstanding students who have demonstrated exceptional performance across all modules in their examinations namely: 1) Morris Mwenda Muriithi; 2) Alexander Munyao Muia; and 3) Justus Muendo Muange.

Alexander

Justus

Morris

Congratulations to these remarkable individuals! Your achievements are a testament to your dedication and hard work. We encourage you to continue striving for excellence and to be our ambassadors in the aviation industry. Your success not only inspires your peers but also sets the bar higher for our future candidates.

As we come to the closure of yet another successful year, we celebrate the individual and collective achievements of our students even as we look forward to greater accomplishments in the future. Let us continue to uphold the high standards of aviation training and education and work together to achieve our shared goals.

To all our candidates, thank you for choosing us as your preferred partner in aviation training. We appreciate your commitment and hard work. Your success is our pride, and we couldn't have asked for a better Christmas gift than these outstanding results.

From all of us at Aerotechnics, we wish you a Merry Christmas and a Happy New Year!
